

AC Sprint Ranking System – Current Competition Seeding

The Australian Canoeing Sprint Racing Technical Committee has determined that the following national events be taken into account for the ranking of athletes for the 2015 National Championships.

Current Competition Seeding

2012/2013

GP 1

GP 2

GP 3

2013 National Championships

2013/2014

GP 1

Oceania Championships/U23 National Championships

2014 National Championships

2014/2015

GP 1

GP 2

Athlete Rankings are maintained for K1 and C1 races in Open, U23, U18, U16 and U14 age groups only. K2 and K4 results are not taken into consideration.

The ranking order is determined by each athlete's fastest time, which may be derived from a heat, semi-final or final across these events and is for the purpose of placing athletes into heats at the 2015 National Championships.

Subsequent progression into semi-finals and finals is solely determined by performances during the National Championships according to the respective race plan.

Where an U23 athlete has also competed in an Open race, their fastest recorded time in either age group will be attributed to their ranking order in Open as well as in U23.

Where an athlete in a singles event has no current ranking data, the competition committee may, in its sole discretion, apply a rank to this athlete.

The seeding of doubles crews is determined by the sum of both athlete's single ranking number divided by two.

For example, Athlete A, K1 rank 25, Athlete B, K1 rank 32, the crew would have a rank based on $25+32=57$, then $57 \div 2=28.5$ rounded down to the nearest whole number = 28.

In a crew where only one athlete has ranking data, the ranking of this athlete will apply to the crew.

In the case of a doubles crew where neither athlete has ranking data, the competition committee may, in its sole discretion, apply a rank to this crew.

The athlete ranking can be found at regattas.canoe.org.au under "Sprint Rankings". Competition entries use "Current Competition Seeding".
